

M-14™ Practice Basket

**14 Welded
& Hot-dipped
Galvanized
Chains.**

The M-14™ Practice Disc Pole Hole® is designed to be a consumer-friendly version of our standard line of disc catching devices. This basket weighs only 25 pounds and snaps together, no bolts necessary. It's easy to put together and easy to take apart.

The product fills a void for inexpensive practice Disc Pole Holes, allowing the novice, advanced, and pro players the ability to practice and play Disc Golf wherever they want.

The M-14™ is protected by silver zinc plating and is guaranteed for 1 year against failure caused by rust and corrosion.

The M-14™ comes in a special box protected by an outer shipper. The box comes with game information, throwing instructions and illustrations on how to throw as
